# Review Word Puzzles

## Step 1: Hints & Answers

## **Review Word Puzzles**

### Overview

You will design a word puzzle based on the chapters that we have covered. This is an individual project. (not group work).

### Step 1: Hints and answers

Start by creating a list of hints and answers. Answers should be one word only. If the answer is a number, spell it out. Have a list of about 20-25 hints and answers.

### Step 2: Choose Puzzle Type

The puzzles must be the style in which you give the hint and they must find the answer in the puzzle. Crossword puzzles and some word searches are examples. Recommendation: do a quick test run before spending hours with a particular software.

Possible website sources:

<http://www.toolsforeducators.com/wordsearch/wordsearchq.php?hint=text>

<http://www.toolsforeducators.com/crossword/>

<http://www.discoveryeducation.com/free-puzzlemaker>

### Step 3: Create Your Puzzle

Use your list of hints and answers to create a puzzle. You will need a minimum of 15 hints in your finished piece. Please print two (2) copies of the puzzle and two (2) copies of the answer page. Keep a nice copy of the puzzle and the answer page in with your assignments.

### Step 4: Test Run

We will trade puzzles in class to test the difficulty of the puzzle. The puzzle should take between 20-45 minutes to be completed successfully.
